

# HUMANITARIAN ENGINEERING

SUMMER SCHOOL

*design. build. empower.*

PEOPLE  
FIRST

INNOVATE  
TOGETHER

BUILD  
SOLUTIONS

CREATE  
IMPACT

*Engineering  
for a better,  
more equitable  
world.*

WHEN?

JULY 6 – JULY 10, 2026

WHERE?

POLITECNICO DI TORINO

## ENGINEERING SOLUTIONS FOR A MORE EQUITABLE AND SUSTAINABLE WORLD.

Join an international community of students, researchers and professionals to tackle real-world challenges through innovation, collaboration and hands-on projects with communities.

### REAL-WORLD IMPACT

Work on projects addressing pressing humanitarian challenges.

### LEARN & COLLABORATE

Interdisciplinary learning with peers, experts and local communities.

### HANDS-ON EXPERIENCE

Workshops, field visits and design challenges in diverse contexts.

### GLOBAL PERSPECTIVE

Build an international network and develop a global mindset.

### WATER & SANITATION

Access to clean water and improved sanitation for all.

### RENEWABLE ENERGY

Sustainable energy solutions for resilient communities.

### SUSTAINABLE DESIGN

Circular economy and appropriate technologies for local needs.

### HEALTH & WELLBEING

Engineering innovations that improve health and quality of life.

### DISASTER RESILIENCE

Building safer, stronger communities for a more resilient future.

LEARN. COLLABORATE.  
MAKE A DIFFERENCE.

CONTRIBUTING TO THE  
UNITED NATIONS  
SUSTAINABLE  
DEVELOPMENT GOALS

BE PART OF THE CHANGE.

*Apply. Innovate. Impact.*
